Reviews

This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

School buildings and school curriculum should be so constructed and so managed that they cannot themselves either produce or aggrs vate physical defects. 9. The effect of school environment and school requirements upon the child should be constantly studied. Teachers should be examined and reexamined for their vitality, which exercises an important influence upon that of the pupil. 10. Hygiene should be so taught that children will learn their health rights and how to maintain them.--School Hygiene. WHOOPING-COUGH FROM THE POINT OF VIEW OF PUBLIC HEALTH. BY CHARLES R. GRANDY, M. D., NORFOLK, VA. Whooping-cough has so long been treated by the laity and also by some physicians as a joke that I would hesitate to bring the subject to your attention, if I did not feel that it is high time for the medical profession to put aside this erroneous idea and give serious thought to checking this large source of infant mortality. That there is some excuse for the popular impression that whooping-cough is not a serious disesease is shown by the following quotation from one of the older editions of StrumpelPs Text-Book of Medicine: The prognosis is favorable with the majority of children, if they are previously strong and healthy. Very young children are in more danger than older ones. There is danger if secondary pneumonia develops and if...
