TALES OF THE EX-APES

University of California Press, 2015. Paperback. Book Condition: New. 14 x 21 cm. "This book is about the irreducibility of human evolution to purely biological properties and processes, for human evolution has incorporated the emergence of social relations and cultural histories that are unprecedented in the apes. Human evolution over the last few million years has involved the transformation from biological evolution into biocultural evolution. For several million years, human intelligence, dexterity, and technology all co-evolved with one another, although..."
