SHOP MATHEMATICS VOLUME 2; ADVANCED SHOP MATHEMATICS (PAPERBACK)

To get **Shop Mathematics Volume 2; Advanced Shop Mathematics (Paperback)** eBook, you should refer to the button below and download the ebook or have accessibility to additional information which are relevant to SHOP MATHEMATICS VOLUME 2; ADVANCED SHOP MATHEMATICS (PAPERBACK) ebook.

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 Excerpt: .There are several special forms of triangles. The Right Triangle, or right-angled triangle, has two of its sides meeting at right angles, as shown in Fig. 83. The side opposite RIGHT TRIANGLE ACUTE TRIANGLE OBTUSE TRIANGLE Fio. 83. Fig. 84. Fig. 85. the right angle is called the Hypotenuse. The relation between its sides gives us one of the most useful laws of mathematics; namely, the square of the hypotenuse is equal to the sum of the squares of the other two sides. In Fig. 83, $c^2 = a^2 + b^2$. This relation is useful in calculating the lengths of diagonal distances and in laying out right angles by the use of three numbers having the relation, such as 3, 4, and 5. This law is often called the Pythagorean theorem, from Pythagoras, the ancient Greek philosopher who discovered it. It must be remembered that this relation is true only for a right triangle. If all of the angles of a triangle are acute angles, as in Fig. 84, the triangle may be called an Acute Triangle. If one of the angles of a triangle is an obtuse angle, as in Fig. 85, the triangle may be called an Obtuse Triangle. When a triangle has two of its sides equal, as shown in Fig. 86, the triangle is called an Isosceles Triangle. The angles opposite these sides are also equal; in Fig. 86 $\angle CAB = \angle CBA$. When a triangle has all three sides equal, the triangle is called...
