Swedish Research Institute in Istanbul, Turkey, 2007. Paperback. Book Condition: New. 274 x 180 mm. Language: English . Brand New Book. For more than a century, education has been considered the linchpin of modernity and intimately linked to the development of both the nation and the individual citizen. During this time educational debates have also underlined the crisis and obstacles in organising and transmitting the right kind of education. Both Turkey and Sweden can be considered multicultural societies but the meanings and expressions of multicultural are contested both within and across the two national contexts. Education in Multicultural Societies contributes to the critical analysis of education. Broad in its scope, it covers areas such as the challenges in multicultural education, educational institutions and identity formations, strategies for empowerment and topics including gender, informal education, religion and education, nationalism, ethnicity, youth and adult education. The distinguished international contributors to this volume work in the fields of education, sociology, religious studies, linguistics, anthropology, folklore and cultural studies and bring their expertise together in the first book to analyse education in these two societies.
