

## Microwave Dielectric Studies on Modified MgTiO<sub>3</sub>-CaTiO<sub>3</sub> Composites

Filesize: 9.33 MB

### Reviews

*These sorts of pdf is the greatest ebook offered. We have study and that i am sure that i will going to study once more once more in the future. Its been printed in an remarkably simple way and it is only after i finished reading through this pdf through which in fact transformed me, affect the way i believe.*

*(Mr. Dashawn Block MD)*

## MICROWAVE DIELECTRIC STUDIES ON MODIFIED MGTIO<sub>3</sub>-CATIO<sub>3</sub> COMPOSITES

SPS Jun 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x12 mm. This item is printed on demand - Print on Demand Neuware - The development of microwave communication systems requires materials which can be used as dielectric resonators in filters, antennas and oscillators at microwave frequencies in radar detectors, cellular telephones and global positioning satellite devices. Dielectric Resonators are inevitable component in microwave telecommunication devices. To meet the requirements for use in such practical applications, the materials should possess stringent properties like high relative permittivity for miniaturization, high quality factor or low dielectric loss for better selectivity and nearly zero temperature coefficient of resonant frequency for thermal stability of device. Two conventional approaches are usually employed in the development of excellent dielectric ceramics; one is to create a new dielectric ceramic material and the other is to combine two or more than two materials to achieve characteristic compensation. The later one, mixing two or more compositions with different dielectric properties has been tried for this work. In recent years the MgTiO<sub>3</sub>-CaTiO<sub>3</sub> composite ceramics are increasingly becoming attractive for many applications in wireless communication. 200 pp. Englisch.
