# FINITE-DIFFERENCE TECHNIQUES FOR VECTORIZED FLUID DYNAMICS CALCULATIONS

Springer. Paperback. Book Condition: New. Paperback. 236 pages. Dimensions: 8.9in. x 5.9in. x 0.5in. This book describes several finite-difference techniques developed recently for the numerical solution of fluid equations. Both convective (hyperbolic) equations and elliptic equations (of Poissons type) are discussed. The emphasis is on methods developed and in use at the Naval Research Laboratory, although brief descriptions of competitive and kindred techniques are included as background material. This book is intended for specialists in computational fluid dynamics and related....

## Reviews

---

*Completely essential go through ebook. it absolutely was written quite properly and useful. Your way of life span will likely be enhance the instant you total looking at this publication.*

-- **Norma Dooley**

*Simply no terms to explain. I am quite late in start reading this one, but better then never. Its been written in an remarkably easy way and is particularly merely soon after i finished reading this book where basically changed me, affect the way i really believe.*

-- **Prof. Jedediah Kuhic DVM**

*A very amazing ebook with perfect and lucid reasons. Indeed, it can be engage in, still an amazing and interesting literature. I found out this pdf from my i and dad encouraged this book to discover.*
